REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-4 are allowed over the prior art of record. Current invention teaches a switch device having a rotatable driver that uses a protruding receiver that protrudes out of a case to receive an external downward force. The driver includes a sliding portion when external force is applied to the receiver slides along a slope of conductive plate to either switch on or off. A common spring for the two switching elements with a pair of pressing strips provides a downward force on the shaft of the drive for the switches. The claimed driver and common spring, in combination with the claimed switch structure of claim 1 are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
